

Features

Tour Wedge type L

Forged Gooseneck Wedge to Reduce Shank

type [L] = [Less Shank] = To suppress shank

Easy Gooseneck
+
Special par area shape
reduces shank
+
More distinct
soft feel of mild iron

Par Area Shape that Suppresses Shank

Deeply curved shape that closely
replicates the curvature of golf ball

Less prone to shanking
even when striking near the hosel

Stabilization of Spin Rate in Wet Conditions

By applying laser milling on the entire face surface,
the spin rate in wet conditions is similar to that of dry conditions
