

Features

Fortune

Neo-Mallet Putter with Refined Shape

Black chrome plating
⇒ Reduces glare

Mild Iron (S25C) Japan Forged
x 5 Axial Precision Milling
⇒ A soft feel and pleasing sound at Impact

MS-01
(our previous mallet type model)

Large neo-mallet putter
⇒ Higher Inertia for added stability

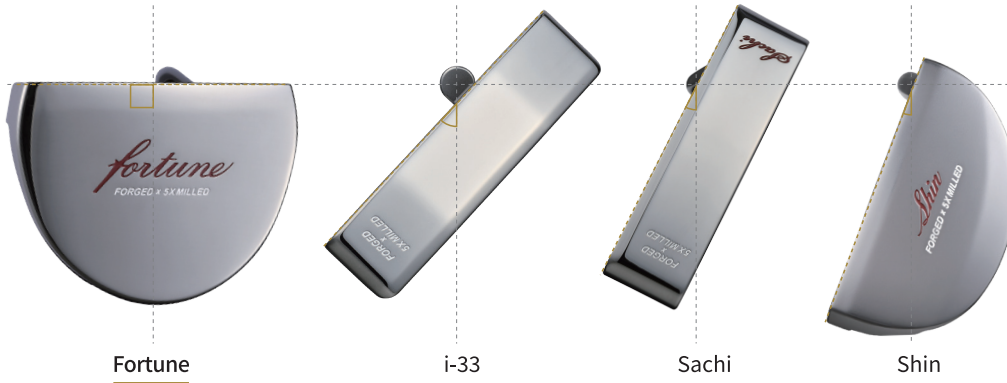

Optimal CG Placement Promotes Overspin After Face Contact

Lower & more forward CG

Reduces backspin at impact and promotes overspin to the ball

Face Balance Position

Large Small

Fortune

i-33

Sachi

Shin

CG angle is approx. 90° (Face balanced)

Assembled with original double-bend shafts

Encourages Square Impact

Fortune Center Shaft

Center Shafted ver.

The face center intersects with CG position
on the face at the shaft axis line
⇒ **Clearer soft feel + Easier to imagine
hitting a ball at the face center**
